MINI METAL SAW 600W - POWX1410

Cutting metal has never been easier with this mini metal saw. Its small size, lightweight design, smart grip,... it all contributes to making this POWX1410 a highly maneuverable tool that is easy to handle and can be operated with just one hand.

This flexible mini metal saw functions with a 120mm disc and can cut up to 41,5mm deep if the cutting depth scale is set at its maximum. The side guide makes sure your straight cuts are clean and accurate. A convenient collection box gathers the fine dust and possible chips.

One blade for metal is included.
